

Voiceweaving™ 2019

Spring Sessions at Cerimon House

This Spring you're invited to join in a series of playful, interactive sessions that focus on opening your voice to 'flow', catching personal song-lines, shaping them into rhythmic-melodic patterns, jamming with them in duets, synthesizing harmonies, then entering into the flow of collaborative composition in small circles. This Spring we'll move through a sequence of fundamental improvisational skills.

All Sessions are Drop-in, but registration is recommended.

March: We'll focus on accessing melody lines and rhythms unique to you, learn how to shape them into melodic and harmonic patterns, & jump into the groove with delightfully fun partner and small group games.

April: We'll deepen access to your personal creative flow, work with partners and in small and full-groups sets, we'll practice listening for, creating, refining and weaving layered, rhythmic harmonies into our songs.

May: We'll combine all the skills we've developed, focusing on creating complex harmonies, supported solos, chant-songs and entering 'deep flow' together.

Pre-registration recommended.

For more info, or to register, go to: robinchilstrom.com
